CECA and CAM Collaboration

CECA is asked to help CAM (Commonwealth Association of Museums) on education to revamp a distance learning program. The objectives of CAM include maintaining and strengthening links between museums and museum professionals both within the Commonwealth and internationally. CAM stresses the importance of professional training and development (including a Distance Learning Program in basic museum studies), stimulates professional dialogue and fosters collaboration, like CECA does.

Because CAMs intention to revamp the program there will be a pre-pre-conference meeting during CAMtriennial2020 in march this year. Former tutors and students are invited by CAM to provide feedback on the existing distance learning program. If you like to attend this workshop go www.camtriennial2020.org
