

Dear members,

CECA will start off 2023 with our **annual general assembly!** This is an opportunity to hear about our activities in 2022 (including the ICOM General Conference in Prague) and get an overview of the projects for 2023.

We will therefore meet on **January 14th at 3pm** (Paris time - GMT+1). The meeting will be held in English on Zoom, but there will be sequential translation done by board members. No minutes will be made as the reports are already very detailed.

Agenda:

- Presentation by the President of the main achievements of 2022
- Remarks about these achievements by the respective board members
- 2023 Annual conference in Singapore
- Budget orientation for 2023
- Other perspectives for 2023
- Questions from members
