

CECA 2023 WEBSITE REPORT WEBMASTER MARIE-FRANÇOISE DELVAL

ICOM has designed a site template (mini-site) for its committees, based on the structure and visuals of its own website. The webmaster of each mini-site uses this model for the communication of his committee. Each mini-site can be consulted on a PC, browser version, with a drop-down menu on the left.

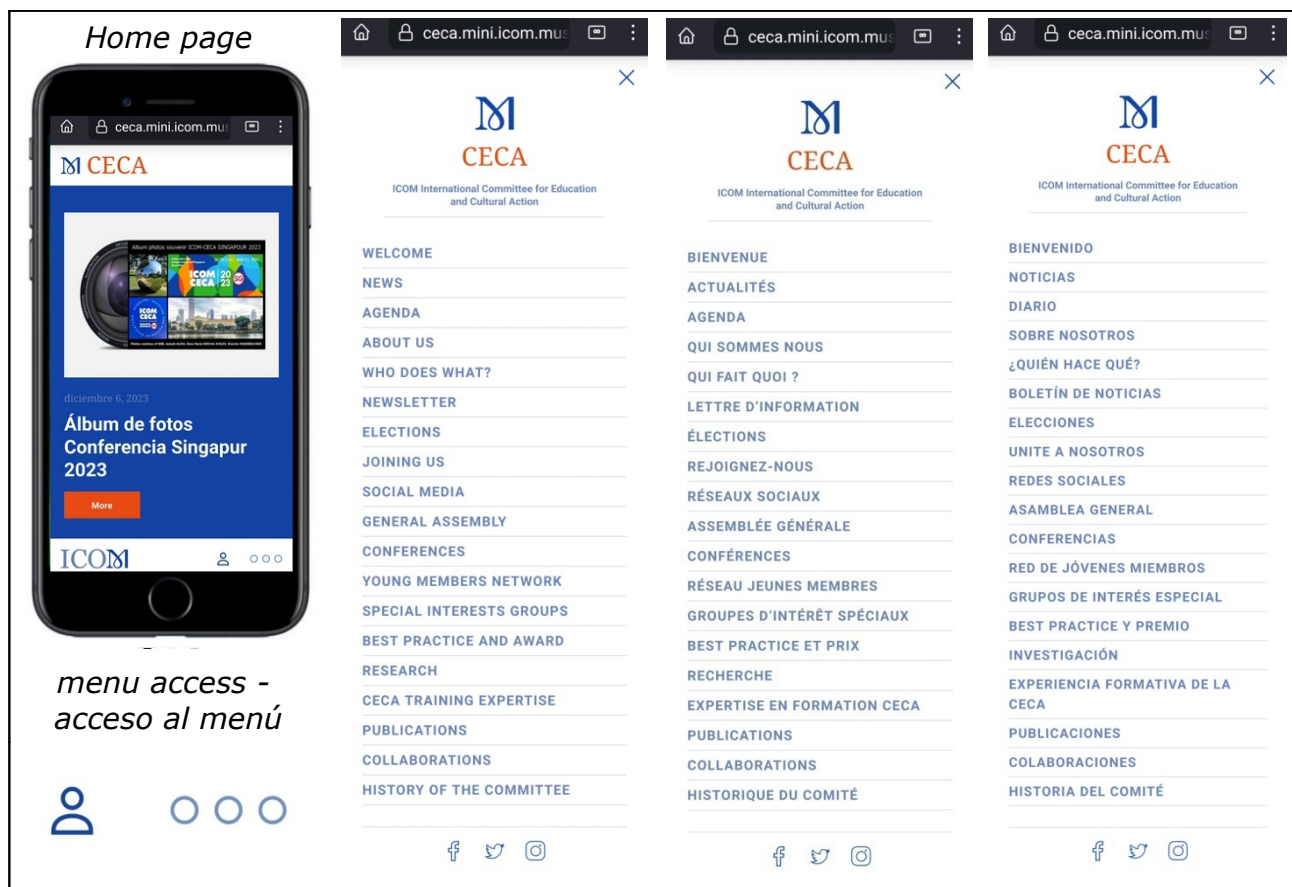

The browser version with the menu on the left can also be viewed on a mobile phone.

But there is also a visual variation of the mini-sites for mobiles. Designed to maximise the small size of screens, it does away with the left-hand menu.

To access the menu and its items, click on the 3 dots at the bottom right of the screen: this opens the menu.

As the CECA website is trilingual, 3 menus are available: English, French and Spanish.

In 2023, the CECA's activities were numerous, and the mini-site regularly provided information, as well as details of how to take part in conferences and competitions, and included summaries and reports, many of them illustrated.

News

Annual conference in Singapore, Colette Dufresne-Tassé research competition, Best Practice competition, creation of the Young Members network and its competition, creation of a university course on applied research in museum education, virtual museum mediation.

CECA World Newsletter

Integration of downloadable bulletins no. 12, 13, 14 and 15.

General Assembly of 27 January 2023

Information on how to take part online on the Zoom platform. Integration of downloadable activity reports from the Board, regional coordinators, Best Practice and Colette Dufresne-Tassé competitions, and Special Interest Groups.
